

YOU MATRIX™

Turn EMF Pollution to Your Advantage...Even 5G!

Presented by: Dr. Mindy Beck, ND and Patrick Marzin

Date: Saturday, February 29th, 2020

Time: 2:00 PM - 6:00 PM

Location: Room 321, NUNM Academic Building

Space is Limited! RSVP to the "2/29/2020 Event at NUNM" by visiting this webpage: <http://youmatrixit.com/events/>

At the Presentation, You will Discover:

- How your biology can benefit from EMF pollution, even 5G, with YouMatrix!
- Why Electromagnetic Pollution is at the root of all disease states.
- How you can be a pioneer in the most ingenious Green Movement!

Preview the presentation topics by listening to the interviews at these two links:

Patrick Marzin, Co-Founder & CEO of YouMatrix

After receiving great benefit from Biosyntonie treatments for an injury he had sustained, Patrick Marzin became a student of the methodology. In addition to being a French native living in the US, Patrick's dedication, persistence, and inquisitive nature earned him the role of Pierre Nicolas' interpreter and mentee. (Pierre Nicolas is the inventor of Electromagnetic Radiation (EMR) remediation tools and a treatment method known as Biosyntonie. Pierre started his investigation of EMR in 1961 and has been developing remediation and treatment tools since the 1980's.) Soon after the development of the first Tily's Biotech Adapter (now YouMatrix 5G) for cellphone radiation remediation, the Nicolas family entrusted Patrick with creating a company to launch this new creation in the US.

Dr. Mindy Beck, ND, Co-Founder & President of YouMatrix

Dr. Beck started practicing Naturopathic medicine in 2004. Through her journey as a practitioner she was fortunate enough to be exposed to an eclectic array of diagnostic and treatment tools including BAH. Dr. Mindy first witnessed the devastating effects of artificial EMR when she was treating clients with chronic Lyme disease on the West coast. This experience spurred her to research the effects of manmade EMR on the biology. After four years of seeking solutions for her ailing patients, Dr. Mindy was introduced to Biosyntonie and soon after to Pierre Nicolas himself. Knowing these tools were the answer to helping not only to protect her clients, but humanity from the destructive nature of manmade EMR, Dr. Mindy retired from private practice to dedicate herself full time to the mission of launching Tily's Biotech (now YouMatrix).
